

TYP  
FLT-3AAA  
TREX 3

TACTICAL FLASHLIGHT WITH 3W POWER LED

# TREX 3

- **Unbreakable frontal polycarbonate glass**
- **LED: 3W POWER CREE CHIP (120 lumens)**
- **Size: 27 x 115 mm**
- **Weight: 125 g (with batteries)**

#### Operation:

The light can be switched ON/OFF by pressing the switch on the end part of the flashlight.

#### Battery Replacement:

Unscrew the end cover, replace 3 old batteries with 3 new "AAA" alkaline batteries, screw the cover tightly.

**Use alkaline batteries only!**

#### Warning:

This is not a toy for children!  
Do not shine directly into eyes!  
If batteries or parts are swallowed see a doctor immediately!

#### Environmental Protection:

Do not throw the used batteries as house garbage. The used batteries can be sent to the recycling station, the special waste collection depot or your dealer.

Push  
On / Off

3x AAA  
alkaline batteries
